

## Lynchburg Public Library

### Wireless Instructions

1. While looking at your desktop, look in the bottom right hand corner and you should see the following icon.

2. After clicking on that message you will see the following screen, showing the “LibraryWireless” network as available. Select “Connect”. The screen will look similar to the one shown below.

3. If this is your first time using our Wireless you will see the following prompt. Select “Public Network”.

4. Next you will see a message that says you are connected. Your setup is now complete!

If you are using another utility to configure your wireless, please consult your documentation to connect to this network. The configuration information you will need is as follows.

SSID: LibraryWireless

WEP: None

802.1X: None
